# The Handbook

## Introduction

The GitLab team handbook is the central repository for how we run the company. Printed, it consists of over 2,000 pages of text. As part of our value of being transparent the handbook is open to the world, and we welcome feedback. Please make a merge request to suggest improvements or add clarifications. Please use issues to ask questions.

For a very specific set of internal information we also maintain an Internal Handbook

## Handbook Contents
